## CITY TRUSTEES

### J. F. Thompson Appointed to Fill Vacancy—Water Rate Ordinance Finally Passed

Present Messrs. Coker, Lane, Tower and Watson. The first serious business of the evening was the filling of the vacancy on the board. Mr. Coker nominated Mr. J. F. Thompson; the motion being seconded by Mr. Tower. Mr. Lane stated his objection to the appointment of Mr. Thompson being that the West Side people had by an apparent majority favored the appointment of Mr. Watson. Mr. Lane's reference to the matter was not couched in language acceptable to Chairman Watson and Mr. Coker who resented the imputation of "steam-roller" tactics. On the vote which followed, Mr. Thompson was seated by the votes of Messrs. Coker, Tower and Watson. Mr. Lane voting no. Mr. Thompson was then sworn in by City Clerk Woodberry. Upon taking his seat, Mr. Thompson made a brief statement in which he declared his intention to serve the West Side and the whole city to the best of his ability. He wished to correct some statements which had been made; one was in reference to his age, which is 35 years; another was to the effect that he has been a resident of Glendale over five years; further that he expects to be in a position which will leave him free from any connections that might be construed as embarrassing him in public duty.

A communication was received from G. E. Averill, accompanied by a transfer of the pipe line franchise from F. E. Fitzpatrick to the General Pipe Line Co. of California. Transfer accepted. Demands were read, among them that of the census enumerators, the latter aggregating \$102.00.

The manager of the electric light department reported that construction work is proceeding so that the sum of \$30,000 will be required by July 1st and recommended the sale of bonds to that amount. He stated also that the city's contract for electricity with the Pacific Light and Power Co. expires Nov. 1st; that two station transformers will be needed soon, and as it requires about three months to get them, wished them ordered at once. Recommendations were adopted.

The city engineer reported in reference to lowering P. E. track on Brand boulevard. Had nothing definite to report but believed that this work would be done soon. Mr. McMillan had assured him the requisitions for the work, which will cost \$20,000, have been sent to headquarters. A resolution passed awarding contract for improvement of Sixth street to P. L. Ferry. An ordinance passed third reading establishing grade of Campbell and Dryden streets. The ordinance fixing water rates came up for final passage and was adopted, effective July 1st next. The supply committee was instructed to get a flag for the city hall.

Mr. Hall, the garbage collector, reported that he had no place to dump garbage and the matter was referred to the board of public works. At an unusually early hour adjournment took place.

Citizens of Verdugo road, now being improved, protest against the removal of some pepper trees which usurp the place where the sidewalk should be. Possibly the trees referred to are sufficiently ornamental to make it advisable to let them stand in the way of improvement, but in other instances the city trustees have been altogether too lenient in this matter and have allowed trees to remain that never were ornamental and should have been taken out on general principles. Examples can be seen on Adams street near Fifth and on Lomita street near Adams. Trees properly cared for grow so rapidly in California that except in case of some of our giant eucalyptus which have some thirty years to their credit, there are few that should stand in the way of improvement, for they can readily be replaced by better ones as a rule.

Mr. J. P. McIntyre began excavating this week for a brick store building of one story adjoining the Bank of Glendale on the east, fronting on Broadway. The structure will have a frontage of 68 feet and a depth of 75 feet. There will be a basement under the rear of the store room cornering on Franklin Court, which will be 24 feet in width, the remainder of the building being divided into three smaller stores. The front will be quite striking in appearance, being faced with matt glazed white brick made by the Tropico Art Tile Works, old gold pressed brick being used for trimmings above. The building will cost about \$6500.

### TUESDAY AFTERNOON CLUB.

The club will close the work of the year with a reception the afternoon of June 25 at the Country Club. Each member is entitled to invite one guest. Miss Ethel Lillian Best will sing, and the De Nubla Trio will furnish music during the afternoon. Ice cream and cake will be served.

Last Monday night Julius Kranz of North Glendale played before the Orpheus Club at the Temple Auditorium. A packed house of probably 3,500 people composed the audience, which was very enthusiastic throughout the programme, giving the young performer two encores.

Misses Lida and Nelle Robb entertained at luncheon Sunday, Mr. and Mrs. Tucker of Alhambra and Mrs. Monica Smith, Misses Eleanor and May Richards.

## ALLEGED "BLIND PIG"

### Marshal Miller and Deputies Make a Haul—Case Set for Tuesday Next

It is hard for a citizen of Verdugo Canon, three or four miles from the city hall on Fourth street, to realize that the city of Glendale has jurisdiction in that section, and possibly that accounts for some things. A few sporty citizens of Glendale have been in the habit of winking in an almost audible manner when the subject of "Blind Pigs" happened to be broached recently, and possibly Marshal Miller heard one or more of these winks, for he has lately been keeping an eye or two on that far-off section of his bailiwick. More than once he has gone up in that direction, during the past six weeks and secured the evidence of his own senses that there was "something doing" which the city ordinance is intended to prohibit. He waited to get other witnesses, however, so as to support his own testimony before taking action. Last Sunday morning he gathered his forces, consisting of Deputy Marshal Jim Everett, C. E. Stanley and himself and taking up position commanding a view of certain proceedings, awaited developments. The house is one belonging to Dr. H. B. Crocker on the east side of the canyon about a half mile beyond the Verdugo Tavern. It was 3 o'clock Sunday morning, but neither night nor Sunday had quieted the spirits of the revelers. A "Joy Party" was in full possession of the house and through the windows a full view was had of the hilarious proceedings going on inside. These need not be described in detail as the facts will be brought out on trial, but to the marshal the evidence seemed sufficient to warrant him in arresting the inmates of the place, consisting of eight persons, two or three women. The evidence he depends upon most to make out the case of the city consists of a choice collection of beverages of about fifty bottles labeled as containing all sorts of liquid refreshments from whiskey and beer to cordials. They certainly made an impressive show as they stood on the table in the city hall Tuesday morning.

Just before the raid was made an automobile left the place going toward Glendale carrying away four people, two of them women. The prisoners were at once brought before Recorder Whomes who at 6 o'clock Sunday morning issued complaints and put the two defendants, H. A. Ellis, said to be the bar tender, and Mrs. Inez Crocker, under bonds of \$300 each to appear Tuesday morning at 10 o'clock. Tuesday morning the defendants were represented by Attorney Berry Sturgeon of Los Angeles, City Attorney Evans appearing for the prosecution. Owing to former engagements of the attorneys, the cases were postponed until 10 a. m. Tuesday next. The defendants demand a jury trial on each case with a full venire to be called.

### CHAMBER OF COMMERCE.

The regular meeting of the chamber was held last Friday evening at Old Fellows hall. A number of topics were discussed. The matter of the Scenic Railway up the eastern slope of Mt. Verdugo was taken up and Mr. E. D. Goode and others on committee to solicit subscriptions made reports. The committee was instructed to make a vigorous effort during the coming week to ascertain whether the people want the railroad or not and report at a special meeting. Col. Lewis Ginger was present and explained many features of the enterprise.

The NEWS acknowledges the receipt of an invitation to attend the meetings of the board of freeholders which are held weekly in the Hall of Records, on Tuesday evening.

### PRINCIPAL SELECTED FOR INTERMEDIATE SCHOOL.

The trustees have secured for the principalship of the Intermediate School on Third street Mr. A. M. Brooks, recently of the Monte Bella High School. Mr. Brooks comes with the best recommendations from the schools where he has been employed.

Mr. W. A. Echols, wife and daughter, Della, leave Saturday, June 22nd, for a six weeks' visit to their old home at Indianapolis, Ind., and short visits at Denver, Kansas City, St. Louis, Cincinnati, Salt Lake and San Francisco.

## CAMP MEETING

### Prospects of Adventists Coming to Glendale—August the Time

Mr. R. A. Blackburn has been devoting considerable time during the week to securing grounds to accommodate the Adventists Camp meeting which convenes August 5th, and will be in session probably ten days. This annual camp meeting is a big affair and the managers wish to come to Glendale if possible. At Long Beach last year there were 2000 people encamped for ten days and the attendance shows an increase every year. Ten acres are required to accommodate a community of four or five hundred tents and sanitary and other arrangements must be satisfactory. It was thought at first that the Childs tract on Glendale avenue could be secured, but for some reason this fell through. Now it is thought that a portion of the Thom tract on Jackson and Kenwood streets north of First will be available. This camp meeting will bring to Glendale a large number of very desirable people and it is to be hoped that all arrangements for their satisfactory accommodations may be made.

### AT THE COUNTRY CLUB.

Japanese Card Party. Bride's Day. The Glendale Country Club has been the scene of two recent mid-summer social affairs of especially pretty and elaborate conception.

The first was a card party held in the club parlors on Friday evening, entirely Japanese in character. The chandeliers were converted into bower of purple wisteria. The walls were decorated with bamboo, which reached to the ceiling. Here and there Japanese parasols lent a dainty Oriental touch. A pleasant evening at five hundred was enjoyed by one and all. Handsome prizes were awarded Mrs. C. G. Farrow and Mr. George Mitchell. Following the cards, a light supper was served in courses by Miss Anna Woodbury and Miss Berenice Williams.

"Bride's Day" was the dainty idea carried out by Mrs. L. N. Rudy and Mrs. Charles H. Temple, hostesses of the "third Monday" meeting of the Maids and Matrons. The early part of the session was devoted to cards. Miss Ruby Northwick capturing the head prize. Then followed a guessing game, "Miss Flower's Wedding," in which Miss Berenice Lewis was victorious. Miss Ethel Best of Los Angeles delighted one and all with a vocal solo and an encore. The closing number was a tableau. An alcove was used as stage. As Miss Emma Pulliam played the strains of Lohengrin's wedding march, the curtains were drawn to display a bridal party just about to be seated at a daintily set table to partake of the wedding supper, laid beneath a huge wedding bell of ferns and bride's roses. The bride, Miss Ruth Strode of Kansas City, was charming in her trailing gown of white satin and veil with its wreath of orange blossoms. She was attended by Miss George Duffet and Miss Myrtle Pulliam in pale lavender, and Miss Katherine Lewis and Miss Berenice Williams in pale pink. The pretty scene was illumined by a blaze of many lights. The tableau lasted but a moment, after which the bridal party began serving refreshments to the company at large. An immense wedding cake was divided into generous sections by the bride, and dispensed by her maids. The parlors were decorated with shower bouquets of bride's roses and ferns.

Friday afternoon Mrs. R. H. Wells of 1504 West Broadway entertained the ladies of St. Mark's Auxiliary at a silver coffeeklatch which was held for charitable purposes. The receiving rooms were cool and inviting in their summery decorations, which consisted of Shasta daisies and carnations, with ferns. Mrs. George Cady presided at the coffee urn. Miss Harriet and Miss Katherine Wells acted as assistant hostesses.

## FREEHOLDERS' CHARTER

### What is It?—The Matter Will Probably Come to an Issue Very Soon

The constitution of the state of California provides that "any city containing a population of more than 3500 inhabitants may frame a charter for its own government, consistent with and subject to the constitution, by causing a board of fifteen freeholders, who have been for at least five years qualified electors thereof, to be elected by the qualified voters of said city at any general or special election, whose duty it shall be within ninety days of such election to prepare and propose a charter for said city." This charter must be published and if adopted, must be submitted to the next legislature for approval.

Charter may provide for police courts, compensation and terms. For a board of education, for government by commission, for method of conducting elections, for municipal ownership of public utilities—in brief, it may as stated in the law provide for any kind of a government that is not in its details inconsistent with the state

constitution. The people at large can not be expected to get much of an idea of the instrument until it is framed by the charter makers. At present they should be principally interested in the selection of a board consisting of fifteen intelligent and broad-minded citizens who will get into the instrument not necessarily all the newfangled notions of government, but such as appeal to common sense as best calculated to give us what we all want, the best things in the way of a progressive local government at the least possible expense. After the board is appointed the members will doubtless be glad to receive suggestions from all or any citizens who may wish to contribute ideas on the subject. The board of trustees will probably proceed to call an election for the freeholders soon, as the matter should be pushed, in order to get it through the next legislature convening the first Monday in January,

### COMMENCEMENT WEEK AT GLENDALE UNION HIGH SCHOOL.

The "Class of 1912" is experiencing its week of glory. Its members are the heroes and heroines of the hour, the center of every attraction. After their four long years of study and industry, may they enjoy each moment of this, their commencement week, to the utmost.

The members number thirty-three. They are: Jens Askeland, Elliot Albright, Virginia Allen, Regina Bacon, Louis Bittle, Dana Burket, Eva Donelson, George Duffet, Della Echols, Hazel Everts, Myron Glenn, Lois Graham, Edith Hagin, Esther Jones, Arthur Knight, Alexander McElroy, Percy McIntyre, Jean McNutt, Anna Meglillian, Sydney Parratt, Ruth Pierce, Paul Pierce, Ralph Proctor, Marie Schwarze, Tirzah Snell, Doris Stine, Harold Story, Lola Stutsman, Ellis Tipton, Helen Tupper, Elvira Utter, Susie Gibbs White and Myrtle Wood.

Phis-Tipton is valedictorian, and owing to her years of conscientious study her classmates and her teachers gladly confer upon her the honor.

The colors of the class of '12 are lavender and white; their flower, a lavender and white sweet pea. The motto of the class is "All things come to him who hustles."

Commencement week opened with the baccalaureate sermon delivered Sunday night in the High School auditorium by Rev. Walter E. Edmunds, pastor of the Presbyterian church, Glendale. The sermon, which was remarkable for the many terse, fundamentally sensible ideas which it conveyed, was preached from the text, "Arise, therefore, and be doing, and the Lord will be with thee." The theme which was exploited was "Hustling," which accorded perfectly with the class motto.

Rev. Edmunds said, in brief: "One generation soweth, that another may reap. Such is God's law for the enrichment of the race. All that we have, all the ability that we possess, all the gifts which we prize so highly, all the talents which win for us to applause of our friends, are but gifts, for which it will never be possible to make adequate returns. Debtors we are to others who have in any way assisted us in bringing and placing in our hands material with which to build the house of true character, whereby others who follow us may arise and call us blessed."

"True success, then, comes in handing down to others rich treasures of true living, by which they may build temples for true development of the souls of mankind."

"The word 'arise' is a scriptural word. We interpret it by saying, 'Get into the game; take hold; hang on; hustle.' All things come to him who hustles while he waits. This also signifies laying aside indolence. It means alertness of body and mind. The next two words, 'be doing,' suggest energy, which means one must be wholly in his work. Every real attainment tells of consumption of personal energy for the benefit of mankind."

The text suggests a plan, and no plan spells success in the truest sense in which Christ does not play the leading part. The text concludes with a benediction which every young person needs as he goes out into life. "The Lord be with thee." The way is untried. He knows the way."

Tuesday night was class night. As before, the programme was held in the High School auditorium, which was simply decorated with asparagus plumosus and the various class and championship banners of the school. The class, two by two, marched slowly down the long aisle of the auditorium, mounted the platform and took their places, after which they were

greeted by round after round of applause. The programme for class night was rendered entirely by the members of the class, and was most excellent and enjoyable in its every detail, as was testified by the hearty applause and encores which followed each number.

The programme rendered was as follows:

### COUNTY CHARTER COMMITTEE.

We are in receipt of a communication from the secretary of the board of freeholders of Los Angeles from which we quote as of general interest:

"Realizing that some misapprehension seems to exist regarding a possible consolidation of city and county governments being effected through the proposed charter, permit me to say that the constitution and laws of the state of California do not in any way empower the county board of freeholders to attempt to put into operation any such plan.

"In order that you may get a clear understanding of the position of the board of free holders in reference to this matter, permit me to quote from paragraph 7 of their law committee's report under date of June 4th:

"In view of the fact that the plan for the framing of a county charter is meeting with objection in certain quarters on the ground that such plan represents an attempt to bring about a consolidation of the government of the city of Los Angeles and of the government of the county of Los Angeles, you are advised that the constitution of California does not empower or permit this board of freeholders to frame a charter which would bring about or effect such consolidation."

"The board of freeholders have extended an invitation to the press, and the civic and commercial bodies of the county to attend their meetings and have also requested written suggestions from the public in general."

Mrs. Mary Howard Gridley of Brand Boulevard will be among those in the receiving line at the reception to be given Friday at Hotel Alexandria in honor of the visiting delegates who are members of the Daughters of the American Revolution. Mrs. Gridley is regent of the Los Angeles Chapter of D. A. R.

County Press Association.

GLENDAL, CAL., JUNE 21, 1912

This paper, we regret to say, does  
not belong to the capitalistic press so  
vigorously denounced by Mr. Roosevelt,  
and yet we venture to have opinions  
contrary to those which he and  
his enthusiastic followers appear to  
believe are the only honest ones, possible  
for a decent citizen to harbor.  
As long as our ideas are entertained  
by at least a few half-way respectable  
citizens of national reputation and of  
no reputation at all, we shall not be  
entirely as one without hope.

The Imperial Valley is again threat-  
ened by the flood waters of the Colo-  
rado. It is to be hoped that it will  
not be necessary for the president  
to call upon the Southern Pacific rail-  
road to again save the valley by effec-  
tually damming the river. Even cor-  
porations are almost human and it is  
to be feared that remembering the  
unpaid just claim of about a million  
dollars that congress will not act upon,  
the railroad company might hesitate  
about doing the work.

Reading the daily accounts of a cele-  
brated trial now in progress in Los  
Angeles, one may well ask how the  
courts can expect to retain the res-  
pect, with which they should be  
hedged about, when the judges have  
so little apparent regard for their own  
dignity as to permit the lawyers on  
one side or the other to hurl insults  
at witnesses and opposing counsel. An  
occasional slip might be overlooked  
but there seems to be a class of law-  
yers who have no other idea of con-  
ducting a case than by attempts at  
intimidation.

"The person who lives in Southern  
California and belongs to the 'kick-  
ing' fraternity, ought to be exported  
elsewhere so that he may be brought  
to a realization of the privileges which  
he daily enjoys," remarked the other  
day a Glendale man who has recently  
returned from Mexico. The sugges-  
tion is a good one, we keep spending  
money and effort to induce people to  
come to Southern California, why not  
send some of our efforts to the or-  
ganization of an "Exportation Soci-  
ety" to furnish assistance to the  
malcontents who seem to think that  
it is their mission to find fault with all  
existing conditions.

### BRAIN AND BRAUN.

The NEWS has received the first  
number of "Brain and Braun," a new  
health publication edited by Harry El-  
lington Brook, formerly for so many  
years editor of the health department  
of the Los Angeles Times. It is a  
monthly publication issued by the  
Naturopathic Publishing Co. of Los  
Angeles, is typographically, editorially  
and otherwise attractive. Mr. Brook  
is a versatile genius and manages to  
put into his writings on the subject  
of health much that is of value even  
to those fortunate ones among us who  
think that they are all right physi-  
cally.

Two automobiles dropped a load of  
editors at the door of the NEWS office  
Monday afternoon. When picked up  
and assorted they proved to be C. H.  
Randall of the Highland Park Herald,  
Wickhizer of the South Pasadena  
Record, Palmer of the Hollywood Cit-  
izen, Lawrence of the Burbank Re-  
view, Jay Randall of Artesia News  
(better known as the "Old Alkali")  
Miller of Eagle Rock Sentinel, and  
Keller of the Van Nuys News.

They were treated to the best the  
town afforded (at their own expense)  
and turned loose. We should have  
suspected that the motive inspiring  
their absence from home was political  
except for the fact that the presence  
of the Randalls made such an idea  
visionary.

### SIDNEY DELL LOSES.

Our townsman, Sidney Dell, who  
sued the city of Los Angeles for \$50-  
000 for professional services, has lost  
his case, Judge Conrey having sus-  
tained the city's demurrer. Mr. Dell  
claims to have given the city valuable  
advice at a critical period in regard  
to the Miner Mill suit, and further that

the city greatly profited thereby. In  
the meager newspaper account the  
merits of the case do not appear, the  
decision against Mr. Dell being given  
on technical points only, these being  
that there was no written contract,  
and that if a contract was implied it  
was illegal. If the city of Los Angeles  
really profited by Mr. Dell's advice, as  
he claims, he certainly should be paid  
for his services, and certainly, if the  
only grounds for resisting his claim  
are those stated above, the city of  
Los Angeles does not come off with  
honor.

Poor old constitution of the United  
States, you have fallen upon evil days!  
The great and good Francis J. Heney  
declares that he has no use for you,  
and a shocking delegation of Califor-  
nia patriots are now in Chicago with  
an avowed intention, among other  
things, of demanding (California al-  
ways demands, here's not the shrink-  
ing modesty of the more effete East)  
that the Republican party put a plank  
in its platform declaring for legisla-  
tion which shall make it easier to  
amend and reform the old thing! Once  
upon a time when the nation had not  
produced statesmen of the mighty  
mold that are now popular, the Fourth  
of July was celebrated with much val-  
orous noise, that venerable old docu-  
ment, the Declaration of Independence  
was wont to be read sonorously and  
bouquets consisting of elegant flowers  
of speech were thrown at the shades  
of the men who with much fervor of  
patriotism labored and brought that  
instrument into being! Well, now?  
Oh, now—everything old is moth eaten  
and musty, things have to be new to  
be anyways trusty!

The thoughtful observer of political  
affairs may easily arrive at the con-  
clusion that the more talk there is  
about "the rule of the people," the  
more difficult it becomes for the peo-  
ple to rule. We have an excellent  
example of this phase of political ac-  
tivity in the state of California where  
a little coterie of political bosses suc-  
cessfully hoodwinked the people into  
supporting measures which are calcu-  
lated to take from them a portion of  
the power they possessed. One of the  
processes by which this has been and  
is being accomplished, is the substitut-  
ing of government by appointed  
commissions in place of elective offi-  
cers. One excuse for this is the merit  
of the "short ballot" which must be  
gained by curtailing the number of  
offices. This idea has not in  
any instance been carried so far yet  
as it is seriously proposed by some  
reformers to put into effect by em-  
bodying in the proposed county char-  
ter a provision for the appointment  
by the board of supervisors of all of  
the county officials with the exception  
of three or four. The real joke in  
regard to this matter is however that  
through recent legislation the people  
have been given the power of the  
"recall," which applies to elective of-  
ficers only!

### THE RECALL OF JUDICIAL DECISIONS.

(Elihu Root in the Independent): A  
sovereign people which declares that  
all men have certain inalienable rights  
and imposes upon itself the great im-  
personal rules of conduct deemed nec-  
essary for the preservation of those  
rights, and at the same time declares  
that it will disregard those rules  
whenever in any particular case it is  
the wish of the majority of its voters  
to do so, establishes as complete a  
contradiction to the fundamental prin-  
ciples of our government as it is pos-  
sible to conceive. It abandons abso-  
lutely the conception of a justice  
which is above majorities, of a right  
in the weak which the strong are  
bound to respect. It denies the vital  
truth taught by religion and realized  
in the hard experience of mankind,  
that human nature needs to distrust  
its own impulses and passions and to  
establish for its own control the re-  
straining and guiding influence of de-  
clared principles of action. If we yield  
to the impatience which would destroy  
the system that alone makes effective  
the great impersonal rules and pre-  
serves our constitutional government,  
rather than endure the temporary in-  
convenience of pursuing true methods  
of changing the laws, we shall not be  
reforming, but we shall be exhibiting  
the weakness which thoughtful friends  
of free government the world over  
have always feared the most—the lack  
of that self-control which enables great  
bodies of men to abide the slow pro-  
cesses of orderly government rather  
than break down the barriers of order  
when they obstruct the impulse of the  
moment.

### AT CHICAGO.

As we said in our last issue, it looks  
like the nomination of William How-  
ard Taft at Chicago, but as we go to  
press it is a close fight. That im-  
partial observer, William J. Bryan, has  
this to say in reference to the much-  
criticized action of the national com-  
mittee: "It is not certain but that if  
the positions were changed, the two  
sides would be willing to change argu-  
ments," and he never spoke more  
truly. From the beginning Mr. Roose-  
velt and his adherents have opposed  
those processes which in the past  
served their purpose, but which now  
are turned against them and are there-  
fore anathema. Wild denunciations

made in the heat of the controversy,  
are meant only for the gallery and in  
the course of time the people will  
have a better understanding of the  
matter and be able to pass more cor-  
rect judgment. Confusion exists in  
the public mind as to the rights of  
a party and this confusion is made  
worse by state primary laws which are  
well intended, but the principal effect  
of which is to turn over a party to  
its enemies. This is illustrated in Cal-  
ifornia where a large proportion of  
the vote cast for Roosevelt was polled  
by people outside the Republican party  
who had registered as Republicans for  
the sole purpose of nominating Roose-  
velt. The people appear to forget  
also that this state-wide primary was  
merely a "preference" vote, they had  
no authority legal or moral, to issue  
a mandate to the party. Usually when  
an individual is permitted to express  
a preference to a party in power, he  
considers himself fortunate if his pref-  
erence is considered at all, but in the  
present instance those who expressed  
the preference seem to think that they  
are endowed with the power to dic-  
tate. The people at large have the  
same right to dictate to a party con-  
vention as they have to tell a Metho-  
dist conference what it should do.

### TWO "UNCLE HENRYS."

A gentleman who knows them both,  
remarked to the writer some days  
ago, "Here in Southern California you  
have Uncle Henry Huntington, while  
back in Florida we have our Uncle  
Henry Flagler," and he then pro-  
ceeded to draw a contrast between the  
two Henrys. While he did not dis-  
parage the California railroad mag-  
nate, he dwelt with affectionate rem-  
iniscence upon the character and ac-  
complishments of the Florida "Uncle  
Henry." The latter as is well known,  
is one of the Standard Oil million-  
aires, not having accumulated quite  
as many millions as John D. Rocke-  
feller, but being closely associated  
with the latter and possessing enough

to make it possible for him to buy  
almost anything that happens to be  
purchasable. A few years ago, he took  
a notion to do something that no  
one else had seriously considered  
possible. He had built a railroad  
down the Atlantic coast to Florida's  
southern extremity, but the distance  
of Havana from the main land of the  
United States taunted him. Out in  
the ocean toward the latter city  
stretch the Florida keys for a hundred  
miles or so, little islands of rock jut-  
ting out of the sea, separated from  
one another in some cases by a mile  
or two and in one or two instances by  
a break of fifteen or twenty miles.  
Uncle Henry Flagler called on his  
engineer, "Can you build me a rail-  
road over yonder to the farthest key?"  
"Why, I suppose it could be done, but  
—," and the engineer halted, natu-  
rally staggered by the stupendous  
idea. "But, what?" demanded Uncle  
Henry. "Well," said the engineer,  
who had recovered his breath, "it  
could be done, but it would cost an  
awful pile of money." "I didn't ask  
you about the cost," said Uncle Henry,  
"You go ahead and built it." And it  
was built.

Mr. Flagler owns a large portion of  
the Florida water front and a string  
of fine hotels. He has reclaimed acres  
and acres of swamp land that previous  
to his coming had laid idle and worse  
than useless, peopled as it was by  
snakes and alligators. He gave work  
to all who wanted it and paid good  
wages. There was no good local cause  
which failed to receive his assistance  
and it is said that in Florida they  
swear by this millionaire and not at  
him. In this day and hour when it is  
popularly supposed that no good thing  
can come from a millionaire, it is a  
pleasure to learn of the good things  
that they sometimes do, and it would  
be only fair on the part of that class  
of well-meaning citizens who spend  
much time in promiscuously denounc-  
ing them, to pause sometimes and  
speak of the exceptions which "shine  
out like a good deed in a naughty  
world."

### MEETING OF WATER COMMITTEES

The water committee appointed  
some months ago by the president of  
the board of trustees, held an impor-  
tant meeting last Thursday evening in  
the city hall. Mr. T. W. Watson called  
the meeting to order and on motion  
of Mr. White was elected chairman.  
Mr. Sherer serving as secretary.  
There had been previously appointed  
two sub-committees, one with Mr. E.  
U. Emery, chairman, being delegated  
to look into the Verdugo Canyon wa-  
ter supply and the other with R. A.  
Blackburn, chairman, to inquire into  
the feasibility of securing Owens river  
water. Both committees made a re-  
port. Not much progress had been  
made by Mr. Blackburn's committee  
owing to the fact that they had found  
it impossible to get any definite in-  
formation or proposition from the Los  
Angeles water commissioners, al-  
though they thought one would be ob-  
tained in a few days. Mr. Emery's  
committee had investigated the Ver-  
dugo canyon supply and conditions  
connected with it and believed that it  
is sufficient in quantity and more de-  
sirable as to quality than any other  
supply that the city will find available;  
they were not ready to make any de-  
finite recommendation as yet. A letter  
was read from Mr. L. C. Brand in  
which he offers to sell to the city all  
of his Verdugo Canon water (about  
500 shares) on a basis of \$1500 an inch  
together with his distributing system.  
The latter at a valuation to be ap-  
praised by commissioners appointed by  
both parties. He also is willing to sell  
his Miradero Water Company, now  
supplying a portion of Glendale, on  
a similar basis. The terms of pay-  
ment being such as to require a very  
small expenditure of money on the  
part of the city at the present time.  
Chairman Watson desired an expres-  
sion of opinion from the committee,  
but as many of the members had not  
heard of the proposition before, they  
were not prepared to make a recom-  
mendation, although all seemed to be  
impressed with the fairness of Mr.  
Brand's offer and its desirability.

On motion of Mr. Blackburn the Ver-  
dugo Canon committee was instructed  
to secure information and offers if  
possible from water companies and  
individuals owning water, to sell the  
same, the committee to report at the  
next meeting. There was a full at-  
tendance of members of the commit-  
tee and a few other citizens interested  
and every phase of the water question  
was discussed at length. It is prob-  
able that the committee will be called  
together again in about two weeks.  
The following constitute the commit-  
tee: T. W. Watson, John Robert  
White, Jr., H. F. Coker, O. A. Lane,  
A. W. Tower, F. H. Vesper, E. D.  
Goode, R. A. Blackburn, C. H. Bott, E.  
U. Emery, F. J. Showalter, A. P. Offutt,  
J. H. Flower, F. L. Muhleman, D.  
Carney, H. A. LaGross, J. R. Lock-  
wood, Allen C. Ady, C. J. Letts, Mr.  
Adams, J. C. Sherer.

Warren Benson living on the Eagle  
Rock road near Sixth street has ex-  
changed his home there for thirty  
acres of alfalfa land a mile and a  
half from San Jacinto and shipped his  
personal effects there Monday, he  
and his family leaving the same day.  
Mrs. Elizabeth Hinman, of Moline,  
Ill., arrived in Glendale last Monday  
morning and is the house guest of her  
sisters, Mrs. S. E. Shields of East  
Fourth street and Mrs. Anna Hinman  
of Lorraine street. She will probably  
remain in Glendale and vicinity about  
a month, expecting to be joined here  
in July by her son, Dr. Willis Hinman  
of Moline.

### CHILDREN'S DAY.

Yes, this is happy Children's Day.  
The little ones have right of way.  
Grey-beards today cut out that frown.  
Just step back yonder and sit down.  
This day the Saviour's own—we greet  
To post of honor—the front seat.  
Nor dare you, any one, to say,  
As once was said, "Send them away."  
Hear Him, "Forbid them not," said He,  
"But suffer them to come to me."

We bring them, Lord, with glad ac-  
claim,  
We're learning them to love Thy  
name.

We lay them on Thy heart in prayer;  
Oh, blessed Master, hold them there.  
The purpose of our lives shall be,  
Dear Lord, to train them up for Thee.  
Temptations spread for children's feet,  
These in Thy name, oh may they meet.  
And overcome. Oh, make them strong  
To seek the right and shun the wrong.

A wealth of flowers the chancels grace  
And fragrant odors fill the place;  
But "rosebuds of the nursery" are  
More beautiful and sweet, by far.  
What pleasures to this hour belong,  
How tender, gentle, sweet, their song,  
His praises sung by children's lips  
All other forms of song eclipse.

Sing on, dear children, sing away  
And all your life keep Children's Day.  
Sing, as the coming years unfold;  
Hearts full of love will ne'er grow old.  
SAMUEL PARKER.  
Glendale, Cal.

We have received what seems to  
us to be a strong argument made by  
State Superintendent of Schools Hyatt  
against the substitute proposed by 29  
professors and superintendents meet-  
ing in Los Angeles, April 13th, to the  
Shannahan Free Text Book amend-  
ment. We quote the following:

"This proposed substitute for the  
free text-book amendment is of such  
intense desire, such great pecuniary  
value to the book publishing interests,  
that we educational people cannot af-  
ford to stand for it or champion it."

We are in the position of protecting  
the interests of the children and the  
people of the state as against private  
concerns of all kinds. This measure  
at once sweeps out of state publica-  
tion of text books and establishes  
local adoption of text books, the two  
things most ardently desired in  
this state by all the book compan-  
ies. We school people cannot safely

pull these chestnuts out of the fire for  
them.

**Trust Fears State Publication.**  
State publication is a public utility  
that is hated and feared by the book  
interests. There is no limit to what  
they would do to destroy it.

Local adoptions, with different sys-  
tems of books in every county, every  
city, every high school—how it would  
extend their activities and promote  
business! They would stop at nothing  
to bring it about. For more than a  
year their representatives have been  
sedulously and personally preparing  
the soil for it in this state, by urging  
the "Washington plan" of local adop-  
tion.

We school people cannot afford to  
play into their hands."

### W. C. T. U. NOTES.

Regular meeting Friday, 2:30 p. m.,  
June 23rd, at the home of Mrs. T. A.  
Wright, 305 S. Louise street. Superin-  
tendents will tell in two minutes what  
has been accomplished this year in  
their department. This means that we  
gather up all the fragments, leave  
nothing done by any member not  
reported.

A federation of the southern coun-  
ties of California for the suppression  
of vice, will be held in Temple audi-  
torium, Los Angeles, Sunday, June 23,  
at 2 p. m., to which are invited all  
persons who are interested in this  
vital question. Every church, W. C.  
T. U. and woman's club is urged to  
be represented by two delegates. The  
moral issue of today is that of the sup-  
pression of the social evil. The hor-  
rors of the traffic in girls, the failures  
of all schemes of segregation and re-  
gulation, the prevalence of the great  
red plague have aroused the nation.  
Mrs. Hattie Gaylord, Pres.

Mrs. Mattison B. Jones of Orange  
street entertained at dinner Saturday  
evening in honor of her husband's  
birthday anniversary. The affair was  
planned as a total and complete sur-  
prise. A beautiful decorative scheme  
was executed in Shasta daisies and  
ferns. The color scheme of yellow  
and white was preserved in every de-  
tail throughout the courses. Guests  
of the evening were Dr. and Mrs. J.  
Whitcomb Brougher of Los Angeles,  
Mr. and Mrs. J. Arthur Reed of Al-  
hambra, Mr. and Mrs. Norman S.  
Marsh of Pasadena, Rev. and Mrs.

tion Club.

(Copyright, 1911, by Rev. T. S. Linscott, D. D.)

The Penitent Woman, Luke vii:36-50.  
Golden Text—Faithful is the saying  
and worthy of all acceptance that  
Christ Jesus came into the world to  
save sinners. 1 Tim. 1:15.

(1.) Verse 36—What are the advan-  
tages or disadvantages of a generous  
offhand hospitality?

(2.) What was the attitude or posi-  
tion of the guests when partaking of  
a meal?

(3.) Verses 37-38—This was or had  
been a woman of ill fame. Would you  
say that she had been converted by  
Jesus before this, or was this her first  
approach to him?

(4.) How would such a woman obtain  
entrance to this Pharisee's house?

(5.) What did anointing the feet of  
another indicate in those days?

(6.) What prompted this woman to  
lavish such costly ointment upon Jesus' feet?

(7.) Would you say, and why, that  
this woman, after being forgiven was  
just as pure and holy as if she had  
never been such a sinner? (This is one  
of the questions which may be answer-  
ed in writing by members of the club.)

(8.) What, if any, evidence is there  
that such women are being or may be  
as thoroughly saved today?

(9.) Verse 39—If a like woman today  
with a similar spiritual experience  
should show similar affection toward  
an evangelist who had been the means  
of her conversion, what would be  
thought of it?

(10.) How much can you blame this  
Pharisee for having doubtful thoughts  
of Jesus for allowing a woman of ill  
fame to kiss his feet?

(11.) What, if any, reason is there to  
suppose that this woman had  
been converted by Jesus that she  
would have publicly manifested her  
love in a similar way?

(12.) Verses 40-43—What are the rea-  
sons for supposing that, as a general  
rule, the greatest sinners when con-  
verted become the greatest saints?

(13.) Which has the greater capacity  
for loving God, a virtuous woman who  
becomes a Christian or a thoroughly  
converted fallen woman?

(14.) Is it or not, and why, a general  
rule that those who have been forgiv-  
en most love most?

(15.) On what conditions will God  
forgive one who is a very great sinner;  
also one who is an ordinary respectable  
sinner?

(16.) Verses 44-46—Which are the  
more loving, generous and hospitable,  
those whose hearts are warm with the  
love of Jesus or other Christians of  
cooler temperament? Give your reason.

(17.) Verses 47-48—If a person loves  
Jesus, is that alone a guarantee that  
his sins are forgiven? Why?

(18.) Does Jesus mean that people  
love in proportion to the greatness of  
their sins, or what does he mean?

(19.) Verses 49-50—Can you wonder  
at the surprise they expressed at a  
man forgiving sins, and what is the  
answer to their objection?

## The Scrap Book

Hard Hunting.  
Frederick Glahe of Chicago, the orig-  
inator of the free lunch, was once talk-  
ing to a reporter about new ideas.  
"They are always misunderstood," he  
said. "Take hair  
singling for ex-  
ample. I was sit-  
ting in a barber  
shop one after-  
noon at the time  
when hair sing-  
ling first came out,  
and a middle aged  
chap with a thin,  
sparse thatch was  
having a singe at  
the hands of the  
head barber. Two  
laboring men sat  
and watched the  
singe for awhile  
with awed eyes.  
The burning taper passed to and fro  
across the thin, scant crop of hair, and  
the laboring men couldn't understand  
it at all. But finally one of them  
brightened up and, putting his big,  
rough hand to the side of his mouth, he  
whispered to his companion hoarsely:  
"He's lookin' for 'em with a light."

HAVING A SINGE.

What is Good?  
"What is the real good?"  
I asked in musing mood.  
Order, said the law court;  
Knowledge, said the school;  
Truth, said the wise man;  
Pleasure, said the fool;  
Love, said the maiden;  
Beauty, said the page;  
Freedom, said the dreamer;  
Home, said the sage;  
Fame, said the soldier;  
Equity, said the seer.  
Spoke my heart full sadly,  
"The answer is not here."  
Then within my bosom  
Softly this I heard:  
"Each heart holds the secret.  
Kindness is the word."  
—John Boyle O'Reilly.

Followed Her Mistress.  
The bride had engaged Sarah, who  
had been only a week in America, as a  
housemaid. On her first day her mis-  
tress said: "Now,  
Sarah, I will go  
over the house  
with you and  
show you ex-  
actly what you are  
to do." The bride  
then kissed her  
husband and went  
on her rounds  
of instruction with  
the new girl.  
The next morn-  
ing as the bride  
and her husband  
were sitting at  
breakfast the  
young wife was  
horribly to see  
Sarah enter and, blushing furiously, go  
up to the young man, throw her arms  
about him and give him a hearty kiss.

His Mild Penalty.  
Representative Bell of Georgia was  
showing a rural constituent about the  
capitol, and among other places took  
him into the supreme court room.  
"I think we have too many courts,"  
remarked the constituent. "I know  
what I'm talking about, too, because  
I happen to be a judge myself—that  
is, a justice of the peace. Year before  
last I had a fellow before me for  
snatching a pocketbook from a help-  
less girl, and I gave him such a sen-  
tence as he deserved, but danged if  
one of the higher courts didn't undo  
it all."  
"What was your sentence?" inquired  
Bell.  
"I sentenced the blamed cur to be  
hung," replied the visitor.

She Saw the Joke.  
Mrs. Helen Hambridge, the writer,  
has an English friend who is "a per-  
fectly dear girl," but has no more  
sense of humor than a clock. Mrs.  
Hambridge tried some humor on her  
the other day, but never a smile came.  
"Then," said Mrs. Hambridge, "I told  
her an anecdote.  
"Of course," I said, "you have heard  
the old story of the girl from Iceland  
who was sent to a Harlem flat by an  
employment agent to do the house-  
work. The mistress asked her to state  
her accomplishments. She could not  
cook, it seemed, nor wash dishes, nor  
do the weekly wash, nor make beds,  
nor sweep, nor dust.  
"Then what in the world can you  
do?" asked the exasperated housewife.  
"Well," said the girl shyly, "Ay  
skoll milk dan reindeer."  
"My English friend looked at me  
solemnly. I laughed a little in a per-  
fectly ladylike way just to show her  
that it was really a funny story. So  
she relaxed.  
"Isn't it odd," said she, "what fun  
they make of Harlem?"—Herbert  
Corey in Cincinnati Times-Star.

Keeping Up Appearances.  
A typical aristocrat was the first  
Marquis of Abercorn. He died in 1815,  
but is still revered in Ulster under the  
name of "The Old Marquis." This  
admirable nobleman always went out  
shooting in his blue ribbon and requir-  
ed his housemaids to wear white kid  
gloves when they made his bed. Be-  
fore he married his first cousin, Miss  
Cecil Hamilton, he induced the prince  
regent to confer on her the titular rank  
of an earl's daughter, that he might  
not marry beneath his position, and  
when he discovered she contemplated  
eloping he sent a message begging her  
to take the family coach, as it ought  
never to be said that Lady Abercorn  
left her husband's roof in a hack  
chaise.—"Collections and Recollections."

### CHILD LABOR. (Communicated.)

According to good authorities there  
are over a million children at work  
in factories, mines, shops and mer-  
cantile establishments, and at work  
in the streets of the cities.

According to John Mitchell, a third  
of the children engaged in manu-  
facturing are employed in the cotton in-  
dustry, but many more are employed  
in tobacco factories, in the manu-  
facture of cigars, paper boxes, picture  
frames, furniture, feathers, neckties,  
artificial flowers and boots and shoes.

Although the age at which children  
may begin to work is gradually being  
raised, the factories in the southern  
states still employ children of ten and  
even eight and seven years. By means  
of trade union activity the number of  
children engaged in manufacturing in  
the northern states of the Union has  
gradually been reduced, and the total  
so engaged throughout the country  
appears to have been less in 1900 than  
in 1880.

But the labor force of the cotton  
and tobacco factories of the South is  
being constantly recruited from the  
small children of those regions, and  
exploitation there is practically un-  
restricted.

The character of some of these  
operating at enormous profits and  
building upon the unmerciful exploi-  
tation of children, beggars descrip-  
tion.

The children are subjected to the  
harsh and most brutal tyranny, are  
compelled to overstrain and over-exert  
themselves and to wear out their  
young lives in the external struggle  
to keep up with the machine. The  
effect of this employment of child  
labor is not only to reduce the wages  
of adult workers, but absolutely to  
prevent the possibility of the children  
themselves growing into sane and  
healthy people.

Thousands of men who tramp about  
the country and live off society, in-  
stead of for it, are the product of a  
system of unregulated child labor.  
In the factory the spring of the  
child's life snaps and his spirit is com-  
pletely broken. The outlook upon life  
of a child of twelve or fourteen, emerg-  
ing, illiterate and listless from five or  
six years of work at deadening, mon-  
otonous labor, is hopelessly blank, and  
it is not to be wondered at that many  
children with such a past develop into  
tramps and criminals.

The constant throwing off of these  
worn-out, prematurely aged children is  
a terrible indictment against a society  
claiming to be civilized.

### GLENDAL LOCAL.

The Forest Service is raising sev-  
eral acres of big tree seedlings on the  
Tahoe National Forest in California,  
at a more northerly point than any  
natural big tree grove. While the  
giant sequoias are found in the fore-  
sts of the Sierras at various points  
throughout a total range of some 250  
miles, in the northern two-thirds of  
this range there is practically no  
natural reproduction. It has conse-  
quently been a question whether the  
species would not practically disap-  
pear from this region when the pres-  
ent mature trees die.

The most northern existing grove  
of big trees is on the Tahoe Forest,  
but about thirty-four miles southeast  
of the site selected for planting. This  
site is on a moist flat, not far from  
Nevada City, and is about 2,700 feet  
above sea level. The first seedling  
was done in the fall of 1910, with very  
successful results, and last fall an  
additional area was seeded.

The method used in planting the  
seed was that known to foresters as  
"the seed spot method." Spots about  
six feet apart each way were pre-  
pared by pulverizing the earth with a  
garden hoe. Seeds were then dropped  
on these spots and lightly pressed  
in the soil with the foot. The flour-  
ishing condition of the young seed-  
lings gives good reason to expect a  
future growth of big trees at this  
point. With protection of forests  
from fire, there seems to be no reason  
why the big trees should disappear,  
even though scientists regard them as  
survivals from a past age, botanically  
speaking.

The real estate firm that has done  
so much work along the San Fernan-  
do road in improving the property  
known as Elliott Place has bought 118  
acres of the Andrew Glassell prop-  
erty, on the Verdugo road, along the  
Eagle Rock car line, running up to  
Mt. Washington, and will subdivide  
and improve it.

San Francisco, June 4.—The tons  
and tons of smooth, almost white  
rock that have lined the banks of the  
Northern California streams for years  
as the result of the operations of min-  
ing dredgers, and that have been con-  
sidered an obstruction to agriculture,  
will no longer be such an imped-  
iment. Within recent years uses have  
been found for this rock, formerly con-  
sidered waste, and it has a real com-  
mercial value. The Southern Pacific  
Company in its double track work  
and in the usual course of mainte-  
nance is using many tons of this rock.

For years it has been piled high on  
the banks of the rivers and smaller  
streams. It was useless for levee  
work, and was pronounced a detri-  
ment to the country. Now the ordi-  
nary sized rocks—about the size of a  
boy's hand—are used for track bal-  
last without any crushing. The  
larger boulders are broken into both  
ballast and gravel. Many tons of this  
same rock have been used by the  
Southern Pacific in preparing the con-  
crete for its new bridges across the  
Sacramento and American rivers.

Sacramento, June 2.—Sufficient con-  
crete to put a six-inch cover on a  
fifty-foot street a mile long is con-  
tained in just one pier of the new  
Sacramento river bridge of the South-  
ern Pacific Company, recently com-  
pleted and placed in operation as a  
part of the double tracking of the  
system. Completed, the new bridge  
is 2,200 feet in length, contains 19,000  
cubic yards of concrete, and 9,200,000  
pounds of steel. It has the heaviest  
swing span of any like structure yet  
erected, weighing 6,300,000 pounds.

The upper deck has an eighteen-  
foot wagon road with a five-foot side-  
walk on each side. The lower deck  
is to be used for the double tracks of  
the Southern Pacific. The piers upon  
which the bridge rests average ninety  
feet in height, or about as tall as an  
eight-story office building, and each  
occupies a space as large as an ordi-  
nary city lot.

Too Realistic.  
"Ma," said the little boy, "will you  
let me take baby out in the perambu-  
lator? Bob Carr an' Billy Pitt an' me  
we're goin' to play at a railway ac-  
cident. The perambulator is to be the  
train, an' baby's to be the passenger  
who's pitched out on his head, an' he's  
to be saved from bein' run over by an-  
other train just in time." Three hours  
later when the baby was safely in bed  
the little boy was released from the  
coal cellar.—New York Journal.

Fast Time.  
An Irishman while standing on the  
deck of a steamship which was bound  
for America was interested in watch-  
ing the descent of a diver. Upon the  
arrival of Pat in New York he was  
astonished to behold a diver just ap-  
pearing above the surface of the wa-  
ter. Going to the rail of the vessel,  
he shouted to him, "Faith, sor, and  
ye got over as quickly as meself!"—  
Exchange.

A Lingering Regret.  
"I think it is disgraceful to be enor-  
mously rich."  
"Oh, so do I! I was brought up to  
think that way. But, say—"  
"Well?"  
"Don't you wish once in awhile that  
you weren't so blamed respectable?"—  
Toledo Blade.

The Verdict.  
Prisoner—I didn't steal the horse. I  
only took him from the fellow what  
stole him.

"Shure! I phoned that to the vig-  
ilance committee, but it's no go. They  
phoned me to hang up the receiver."—  
Life.

His Comeback.  
"But," the father objected, "you have  
never shown that you are capable of  
supporting a wife."  
"Oh," the young man replied, "if you  
want her to marry a widower I'll have  
to confess that I can't qualify."—Chi-  
cago Record-Herald.

The cleverest of all devils is oppor-  
tunity.—Vieland.

Sec. 10. That any person, association, company or corporation violating any of the provisions in this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not more than Three Hundred (\$300.00) Dollars, or by imprisonment in the County Jail of the County of Los Angeles, for a period of not more than three months, or by both such fine and imprisonment.

Adopted and approved this 17th day of June, 1912.

Residents along Pacific avenue are very much exasperated over the poor water service rendered them. When the Japs are irrigating all else has to stop, it being impossible at times to get any water for domestic purposes or toilets. This portion of the water system is very much like the steamboat Lincoln described in one of his stories, which he said had such a small boiler and such an immense whistle, that when the whistle was blown the boat stopped, as all the steam was used by the whistle. But no matter how inferior the service given, the water company never fails to collect its bills to the uttermost farthing.

Earl Bond and wife have bought the lot from M. E. Hyde just west of the latter's residence, 1551 Vine street, and will build a house thereon.

Residents of Valley View are busily engaged these days in paying the \$7.20 per lot demanded, as the price of the ornamental street lights that are to be installed some time this year.

H. M. Cupp has moved into the rear house at 1618 Vine street.

Glenn Case, three years old, son of L. B. Case and wife, of 610 Central avenue, suffered a compound fracture of the right leg near the hip, while playing with a neighbor boy a few weeks ago. The injury was so serious that it is necessary for the leg to be encased in a plaster cast for a few weeks.

Miss Jewel Bell of 789 Pacific avenue, is visiting in Santa Paula.

F. O. Heebing, formerly proprietor of the grocery store now conducted by Kilborn & Ebers, and more recently employed in a big Los Angeles grocery, recently purchased a team, harness and wagon and now delivers for a cash and door company in Los Angeles, at a good salary.

Mr. Emmett Burke and family of Los Angeles were touring Glendale and vicinity in an auto, Saturday, and were so charmed with the city that they may locate here. Mr. Burke recently returned from England where he had been to dispose of a large cement plant owned by himself and several other men, in Mexico. They sold for \$200,000, nearly \$1,000,000. It cost them \$375,000 only fourteen months ago. He has a wife and four sturdy boys.

There was quite an excitement near the east end of Vine street, Saturday morning, when a little white dog be-

longing to W. R. Petty's little girl went into fits. After scaring all the family, it ran across the road and threatened the children over there. After arousing the entire neighborhood, all thinking it was mad, the little animal was chased to a vacant lot and shot to death by Mr. Petty. J. E. Peters and wife went to Los Angeles, Tuesday evening, to attend the performance at the Grand. A member of the cast, Dick Ferris' daughter, is well known to them, her mother, Grace Hayward having been raised in Mt. Carmel, Ill., the Peter's old home.

An old time harvest scene was depicted at the corner of Maple and Brand early Monday morning, when Mr. Muhleman and his three sturdy sons attacked the old gentleman's oat field. The boys wielded the scythes like veterans and the father followed with the rake. The grain was soon cut and stacked, almost as quickly as if a mower and horse rake had been used.

There was quite an exciting blaze on a vacant lot on Fifth street between Columbus and Pacific, Sunday. A thoughtless householder leaving set fire to the dead grass. Several houses in the neighborhood were threatened and it took hard work with wet sacks to beat out the blaze. In a few minutes another blaze originated from the same heedless source and a second hard fight was necessary to quench it.

Clyde Carmack, corner Central and Oak Drive, took an auto trip to his fruit farm near Redlands, a few days ago, and brought back with him several boxes of fine cherries.

## WATER

### What Some of the Wells are Doing Over 300 Inches Being Pumped

In estimating the quantity of local water available or to be secured by a reasonable expenditure, that which is pumped from wells is not usually included in the estimate and yet this amount is a very important factor in showing the possibilities in that direction. The following list is very incomplete of our productive wells, but will be found to be conservative:

Output:	Inches
Grissold (Consolidated) Tropic.....	60
Tropico Reservoir, Ninth street (not now pumped).....	50
Lukens, East Fourth street.....	30
Independent (Consolidated).....	20
Thom (Verdugo Springs Co).....	20
Ross.....	40
Verdugo P. & R. Co.....	12
Garst (West Fourth street).....	50

The above table shows that there is a variable but fairly liberal distribution of underground water, the wells about Tropic and West Glendale being apparently the best, although the Ross well in Verdugo canyon is a good one. The wells vary in depth, but nowhere in the valley does it seem impossible to secure water by boring for it. The cost also is variable, a first-class well and pumping plant costing from \$2000 to \$3000. No mention is made here of a number of fine wells nearer the Los Angeles river, where the flow is generally better than on higher ground and water obtained nearer the surface. Among such wells is that of Mr. L. C. Brand on the San Fernando road up towards Burbank. The capacity of this well is probably near the 100-inch mark. The decision giving the city of Los Angeles prior claim on underground water in the water shed of the river, has been practically erased by the action of that city in acquiring the Owens river supply which will for many years to come prevent Los Angeles from claiming the water by virtue of its "necessity." The decision did not take from any one having claim on the water the right to use what he required for domestic purposes.

## DEMAND BETTER SERVICE.

The people of this city are not satisfied with the delivery service given by the people of Tropico from the local branch of the Los Angeles office. In an effort to better the existing conditions the following resolution was adopted at a meeting of the Tropico Chamber of Commerce last Saturday evening:

Whereas, The city of Tropico was annexed to Los Angeles for United States postal service through the Los Angeles office only, on the clear and explicit understanding that "Free Delivery" would be at once extended over the entire city, and

Whereas, A limited part of the city only is favored with such "Free Delivery," and is thereby unjustly discriminated against; therefore,

Be It Resolved, by the citizens of Tropico in this mass meeting assembled, that Postmaster W. H. Harrison of Los Angeles be and is hereby earnestly petitioned to take the necessary steps for the extension of the free delivery of mail matter to all and every part of the city, whether far or near, and with equal fairness to all.

Marshall Miller was called upon during the week to round up some boys who were too careless with their rifles in a thickly settled part of West Glendale. Several people had a very close call from being struck with the bullets and it was thought best to have them reprimanded at the start. The boys were caught and their guns taken from them, and it is hoped they will learn a lesson and not repeat the dangerous pastime.

Among the many pleasant affairs given lately was the theater party given by Mrs. Cora S. Taylor, principal of the West Glendale school. Mrs. Fanny Stone, eighth grade teacher, and Miss Maybelle Douglass of the seventh grade, to the eighth grade pupils. The party witnessed the performance, Saturday afternoon, at the Majestic theater in Los Angeles.

## CHILDREN'S DAY AT THE WEST GLENDALE M. E. CHURCH.

"Children's Day" was observed at the church on Sunday. The edifice was beautifully decorated with flowers and ferns, and an audience that filled every seat listened to the following program. Every number was heartily appreciated, and the teachers deserve credit for their untiring efforts in training the little ones, and the little folks deserve much praise for the manner in which they rendered their parts. Prof. Kribbill's solo was received with hearty appreciation, as was also the duet by Mr. Lyon and Miss Spencer.

Opening song, "There Shall Be Showers of Blessing"; prayer, by the pastor, Dr. Morrison; Bible verse, Lillian Rodgers; song, "Children's Day," by the Junior boys; recitation, Alice Wood; recitation, Lorin Pierce; drill and song, Miss Hommer's class; recitation, "I Never Knew," George Baxter; recitation, Glenn Moore; recitation, "It," Elwood Wightman; song, "Giving Praise unto God," Queen Esther; birthday offering, members of Cradle Roll; recitation, "A Ma Merri-can"; exercise, members of Mrs. Wood's class of beginners; duet, Mr. John Lyon and Miss Elva Spencer; exercise, by the "King's Heralds," offering.

The ordinance of baptism was administered to two members of the primary department and five members of the Cradle Roll.

The "Gleaners" will give an entertainment on Friday evening, June 21, at the church. One feature will be a debate by the members, "Resolved, That the president of the United States should serve one term of six years only." The admission will be 10 and 15 cents. Proceeds to apply on the pledge they made on church debt.

## COMMENCEMENT EXERCISES OF THE WEST GLENDALE SCHOOL.

With the auditorium of the high school crowded to its capacity and standing room at a premium, the entertainment given by the West Glendale school on the evening of June 14th, eclipsed all records of previous entertainments ever given by the school. This was the unanimous feeling of the audience. While Mrs. Taylor and all the teachers deserve a great amount of credit for their share in making the event such a success.

Miss Maybelle Douglass, the teacher of the seventh grade, deserves special credit for her work in training the pupils in the fancy dances, all practicing being done without any interference with her school duties. The boys giving up their noon hour, recess and baseball for the past month in order to drill and show their teacher that they appreciated her untiring efforts in their behalf. Every dance given was absolutely faultless in execution and the participants presented a very striking appearance in their various costumes. Miss Ernestine Lyons was the accompanist. Miss Rachel McClure, accompanied by Gladys Johnson, delighted the audience with some violin selections in a very charming manner and Dorothy Crew gave a reading, "Two Travelers," that called forth the heartiest applause, but owing to the length of the program there could be no encore.

Miss Ruth Wilson gave a very fine recitation also. All the performers were pupils of the school, and no outside talent was employed. The class historian, Willard Leonard, the only pupil entering the school at the first year, and remaining there until prepared for graduation, wrote up the history of the class in a very natural way, not alighting any of his fellow pupils. Carlton Padelford, who composed and read the class prophecy, made some excellent hits which were very amusing. The class song was especially well rendered with the musical instructor, Miss Foster, as leader. Words by one of the pupils, Margaret M. E. Pherson. Mrs. Taylor in a few well-chosen words, presented the graduating class of 1912. Mr. A. B. Henock, president of the board of trustees, made a very neat little speech and with some excellent advice to the class, presented the diplomas. Last but by no means the least, beautiful part of the program was the presentation of flowers, of which there seemed no end. The graduates were almost hidden from view with the choicest varieties, some with a few more than others, but each one had all they could carry and no one forgotten. The stage was very tastefully decorated with potted plants and other flowers conforming as nearly as possible to the class colors, blue and gold.

Said bonds are forty-year serials and are twelve in number, each in the denomination of Five Hundred (\$500) Dollars, dated July 1, 1909, and bearing interest at the rate of five per cent per annum, payable semi-annually on the first day of January and on the first day of July of every year, principal and interest payable in lawful money of the United States at the office of the City Treasurer of the City of Glendale.

One of said bonds is due and payable on the first day of July, 1913; and one of said bonds is due and payable on the same day and date of each and every year thereafter.

All of the bonds hereinbefore mentioned are issued under the authority of the act of the Legislature of the State of California, entitled "An Act Authorizing the Incurring of Indebtedness by Cities, Towns and Municipal Corporations for Municipal Improvements Thereof," which became a law February 25th, 1901, and the amendments thereto, and in accordance with the provisions of law and the ordinances of said city.

No proposals for said bonds will be entertained at less than their face value together with the accrued interest to the date of their delivery, and all bids or proposals submitted will be construed by the Board of Trustees of said City to mean par and accrued interest to the date of delivery of said bonds, in addition to the premium offered, whether the bids or proposals set forth the same explicitly or not.

The said bonds will be delivered at the City Treasurer's office in the City of Glendale, California, or at any designated place, upon the payment by the purchaser of all expenses incurred by the delivery of the bonds and transfer of the money necessary to make delivery and payment equivalent to a transaction at the office of the City Treasurer in the said City of Glendale. All bids or proposals providing for delivery at any place other than the City of Glendale, California, will be construed by the Board of Trustees to mean the price bid in addition to the expenses of delivery, whether the bid or proposal sets forth the same explicitly or not.

With each proposal or bid must be submitted a certified check drawn upon some bank in the State of California, payable to the order of the City Treasurer of the City of Glendale, for the sum of Two Hundred and Fifty (\$250) Dollars, as a guarantee that the bidder will purchase and pay for said bonds in accordance with his proposal in the event the bid is accepted.

The Board of Trustees of said City reserves the right to reject any and all bids or proposals.

By order of the Board of Trustees of Glendale, Cal.

Dated at the office of the City Clerk this 18th day of June, 1912.

G. B. WOODBERRY,  
City Clerk of the City of Glendale.

The city of Eagle Rock has at least one public-spirited citizen. Mrs. Clara D. Knight offers to sell the municipality eleven acres of land for \$17,000, on terms that make it almost a gift. The city has three years in which to pay \$5000, in addition to taking care of a \$2500 mortgage. After three years the city pays 6 per cent on the remainder; the property to be deeded to the city upon the death of Mrs. Knight and her sister, they being aged respectively 71 and 82 years.
